Institutional Distinctiveness

Sree Krishna College, Guruvayur was established by Sree Krishna Educational Society in the year 1964 to promote languages especially Sanskrit, the cultural language of India. Sanskrit is the language in which India has expressed the diverse possibilities of her wisdom and thought. So this institution was expanded into an academic centre for higher learning that provides opportunities for students to learn and express themselves in a wide range of fields of knowledge, including science, mathematics, humanities, languages and literature. Every region has its own cultural and intellectual heritage. The identity of that place is realised through such unique cultural records. It is the responsibility of a higher education institution to identify the uniqueness of the region from the paths of history and to transmit the cultural and intellectual heritage to the new generation. Guruvayur is marked on the cultural map of India by the famous Guruvayur Sree Krishna Temple and the temple related literature, and art forms.

The Guruvayur temple preserves the rare art forms - Krishnahattam (Sanskrit Dance Drama tradition), MuraI paintings, Astapadiyattam, Traditional Kerala Music - Sopana Sangeetam and Kerala Traditional Vedic Chanting tradition. Sree Krishna College has been devising various academic activities to bring out the cultural and intellectual heritage of Guruvayur . It is the only higher education establishment under the Guruvayur Temple Devaswom Management The institution is making efforts to study the heritage of Guruvayur, document it with academic and

research excellence and pass it on to the student, researchers and other beneficiaries. Many fruitful efforts are being done by the institution, to explore the cultural and intellectual heritage of Guruvayur.

The college believes that it's the duty and responsibility of the institution to disseminate the cultural and intellectual heritage to the next generation. The departments concentrate on organising activities each year to promote the Indian Knowledge System, particularly indigenous literature, culture, art forms, and history. With this in mind, our college hosts national seminars, workshops, demonstrations, and certificate programs both on its own and in collaboration with reputable organisations and institutions.

Sree Krishna College, Guruvayur, has been actively promoting the rich heritage of Kerala's classical arts among the younger generation. As part of this initiative, the college has introduced the performences of classical art forms such as Kutiyattam , Nangyar Koothu, Kathakali, Krishnanattam and Sopanasangeetam into its cultural activities. These efforts include a series of lecture demonstrations and performances designed to educate and inspire students by showcasing the depth and beauty of Kerala's performing arts. The programs organised are of unique nature and they blend traditional art forms with contemporary social issues to impart valuable messages to the students and the society as a whole. The college also accommodates students who perform this traditional art forms.
