

Memorandum of Understanding (MoU), Collaborations, and Linkages at Sree Krishna College, Guruvayur

Introduction

Sree Krishna College, Guruvayur, has established numerous strategic partnerships, collaborations, and linkages with academic institutions, research organizations, industry partners, and community initiatives to enhance educational, research, and skill development opportunities for students and faculty. These initiatives promote holistic learning experiences, create internship opportunities, and foster collaborative research efforts, all of which are aligned with the institution's goal of creating a dynamic academic environment. As of 2024, the college has signed 9 MoUs and entered into 71 collaborations with various institutions and organizations across sectors. These partnerships have been instrumental in providing students and faculty with opportunities for learning, research, internships, and training.

Notable Memorandum of Understanding (MoU), Collaborations and Linkages

1. Memorandum of Understanding (MoU)

MoUs serve as formal agreements between Sree Krishna College and various institutions to facilitate the exchange of knowledge, resources, and expertise.
