**\*F2\***

**\_Scientific name\_ : Gmelina arborea**

**\_Local name\_ : Kumizh**

**\_Diameter\_ : 90cm**

**\_Height\_ : 50 feet**

**\_Type\_ : soft wood**

**\_Features\_ : it is a medicinal wood, it is used to make 'kireedam' for kathakali art form**

**\*\*F3\***

**\_Scientific name\_ :**

**Azadirachta indica**

**\_Local name\_ : Neem**

**\_Diameter\_ : 48 cm**

**\_Height\_ : 30 feet**

**\_Type\_ : Hard wood**

**\_Features\_ : High  
medicinal value**

**\*\*F71\***

**\_Scientific name\_ : Bombax  
malabarica**

**\_Local name\_ : Red silk cotton  
tree (murikku)**

**\_Diameter\_ : 150 cm**

**\_Height\_ : 50 feet**

**\_Type\_ : soft wood**

**\_Features\_ :**

**\*\*F77\***

**\_Scientific name\_ : Syzygium  
cumini**

**\_Local name\_ : Jamun(naaval)**

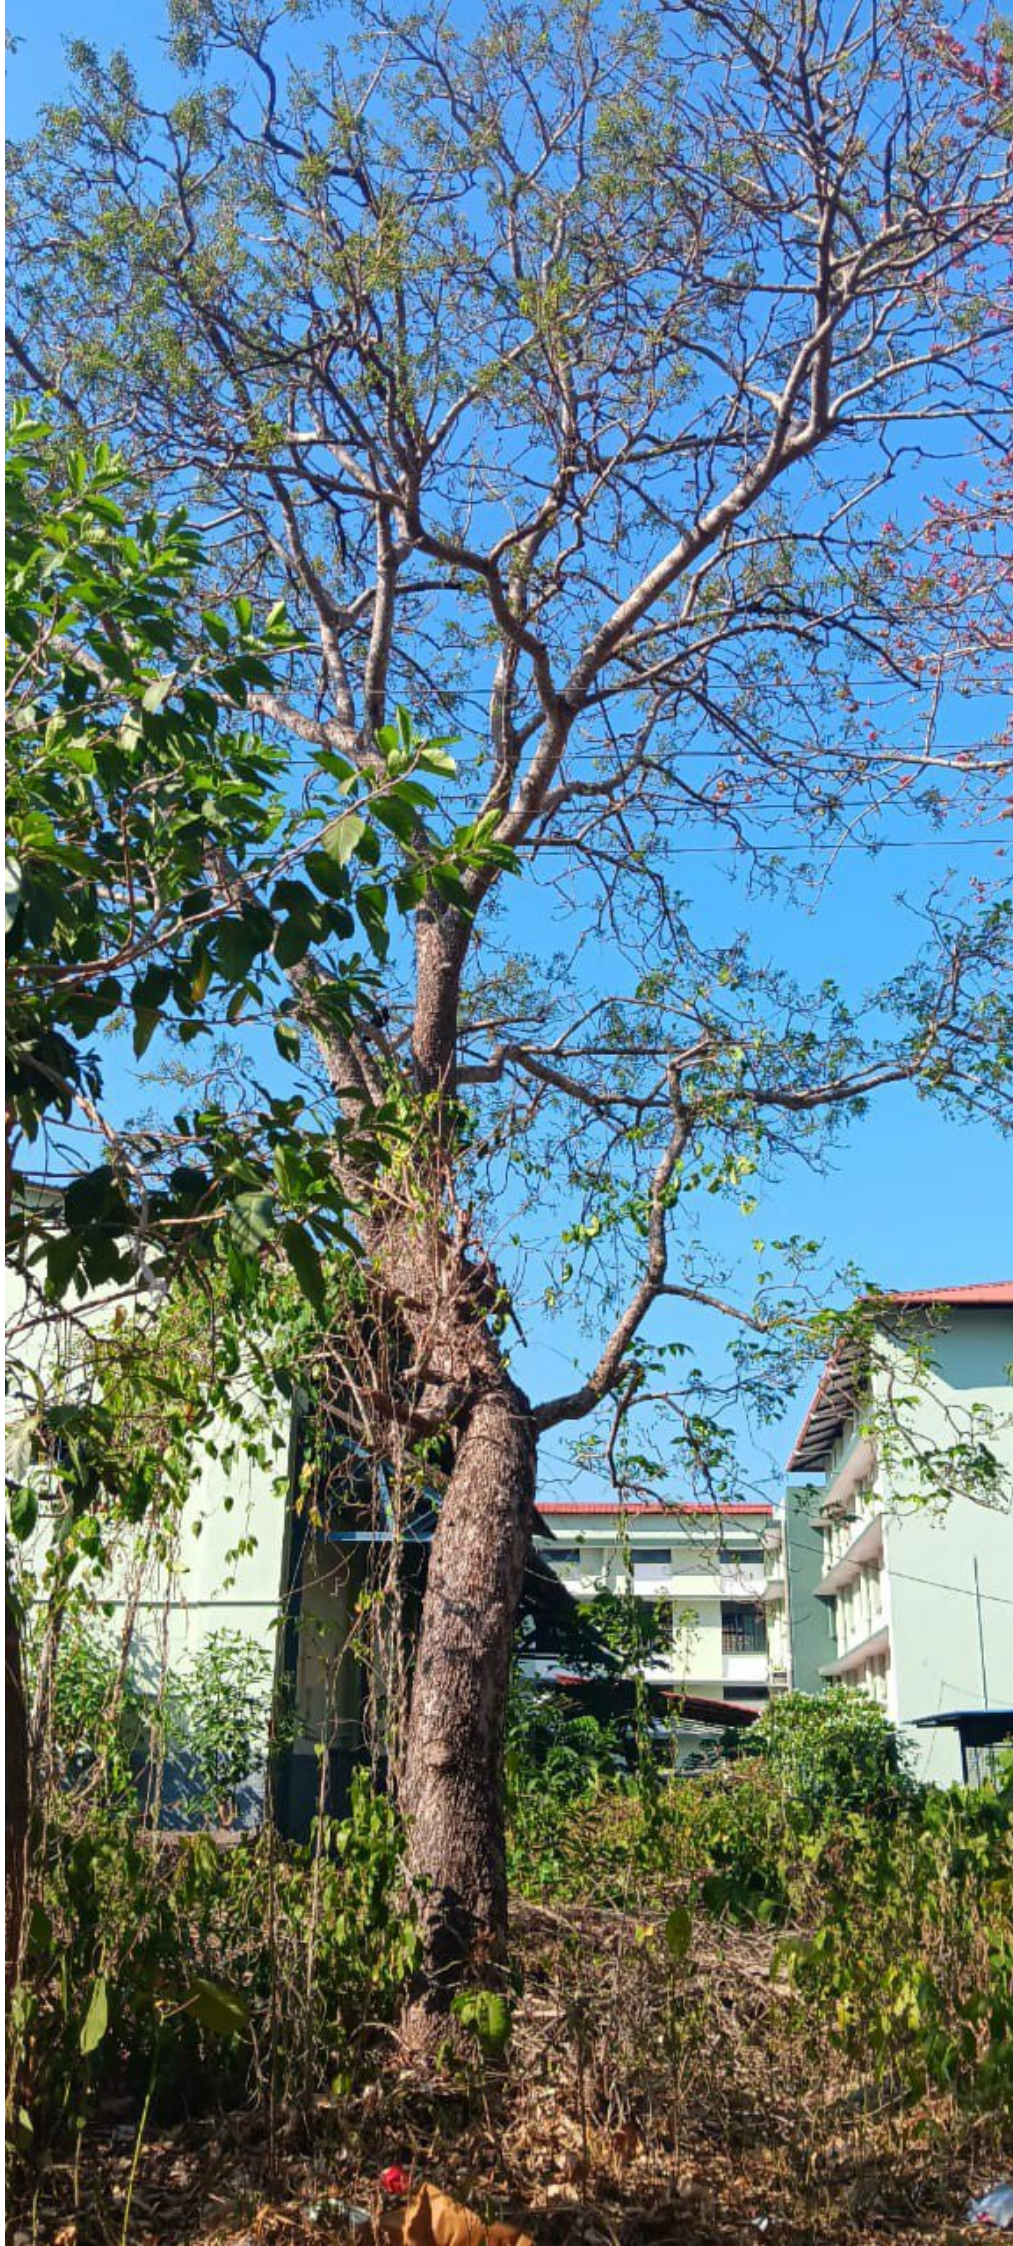

**\_Diameter\_ : 56 cm**

**\_Height\_ : 32 feet**

**\_Type\_ : Hard wood**

**\_Features\_ :**

**\*F70\***

**\_Scientific name\_ :**

**\_Local name\_ :**

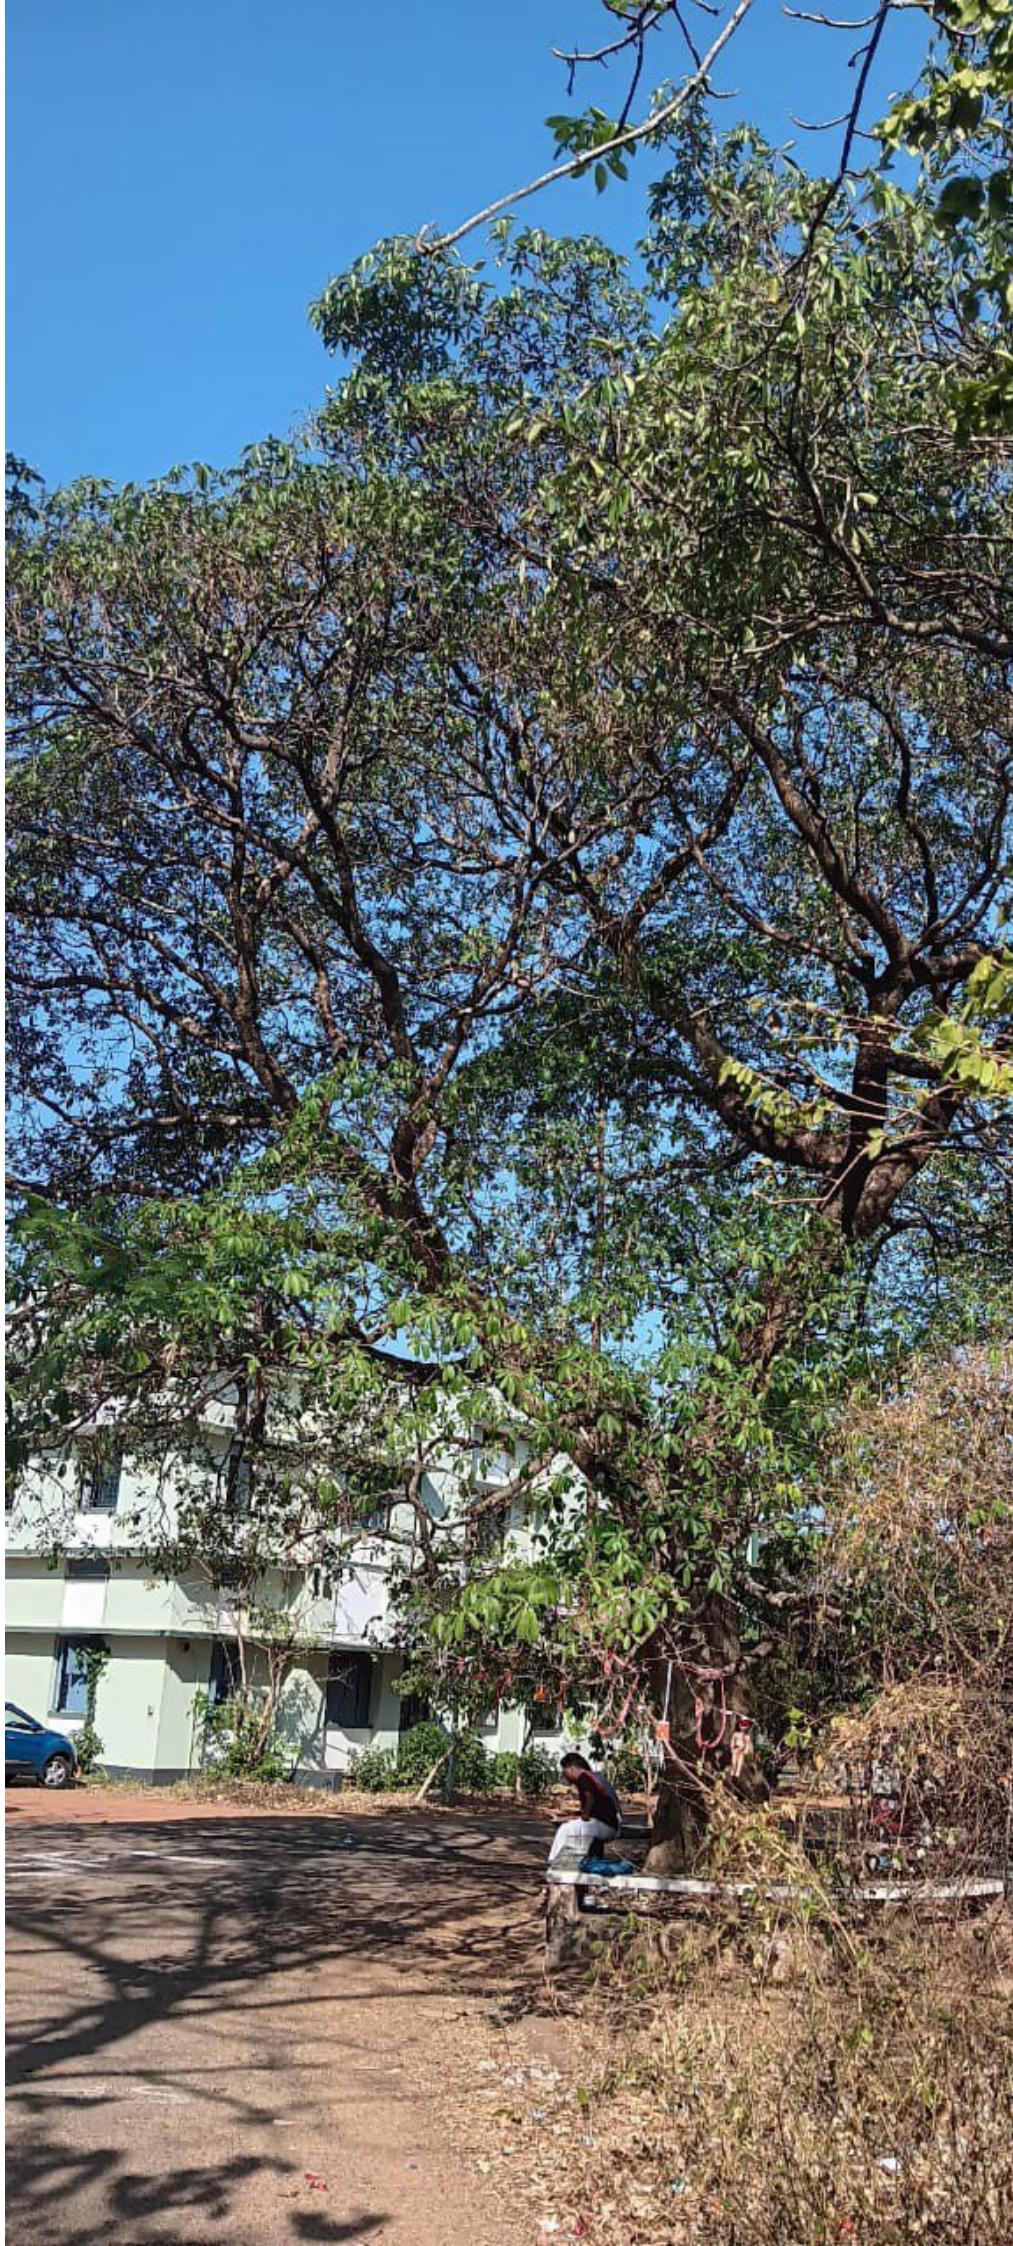

**\_Diameter\_ : 114 cm**

**\_Height\_ : 32 feet**

**\_Type\_ :**

**\_Features\_ :**

**\*\*F43\***

**\_Scientific name\_ : Alstonia  
scholaris**

**\_Local name\_ : Devil tree (paala)**

**\_Diameter\_ : 271 cm**

**\_Height\_ : 70 feet**

**\_Type\_ : soft wood**

**\_Features\_ : It has slowly evolved  
as a prominent avenue tree, due to  
its hardy nature, high tolerance  
against pollution, and adaptability.**

**\*\*F41\***

**\_Scientific name\_ :**

**\_Local name\_ :**

**\_Diameter\_ : 36 cm**

**\_Height\_ : 21 feet**

**\_Type\_ :**

**\_Features\_ :**

**\*F42\***

**\_Scientific name\_ :**

**\_Local name\_ :**

**\_Diameter\_:72 cm**

**\_Height\_:23 feet**

**\_Type\_:**

**\_Features\_:**

**F40**

**\_Scientific name\_ : Alstonia  
scholaris**

**\_Local name\_ : Devil tree (paala)**

**\_Diameter\_ : 216 cm**

**\_Height\_ : 60 feet**

**\_Type\_ : soft wood**

**\_Features\_ : It has slowly evolved  
as a prominent avenue tree, due to  
its hardy nature, high tolerance  
against pollution, and adaptability.**
